New Victorian legislation will remove the right of faith-based schools to employ staff of their choice.

Why should religious schools be forced to employ people hostile to their beliefs while political parties are allowed to employ only those who are supporters of their own party?

TAKING AWAY OUR FREEDOMS

Before Christmas, the Government plans to seriously erode crucial religious freedom protections in Victoria's Equal Opportunity Act. These protections allow religious schools to hire staff who support (or are not hostile) to the beliefs of the religion of the school.

The proposed changes violate the International Covenant on Civil and Political Rights (CCPR), which guarantees "the right to freedom of thought, conscience and religion ... [the] freedom ... either individually or in community with others and in public or private, to ... worship, observance, practice and teaching", and the freedom of parents "to ensure the religious and moral education of their children in conformity with their own convictions" [Art. 18 (1), (4)].

CALL and ASK your Upper House Members:

- Why can the Labor Party refuse to employ members of the Liberal Party, but a religious school will be denied the right to employ people who are not hostile to their beliefs?
- Why is the Liberal Party able to refuse employment to members of the Labor Party, but religious schools face prosecution for not employing people hostile to their beliefs?
- Isn't this hypocritical and state discrimination against religious schools?
